

## RESIDENT CULTURE

Simply put, Horizon House residents are in charge of community life, and a thriving one it is! Through the Residents' Council, a nonprofit corporation separate from Horizon House administration, over 60 resident committees are actively engaged in creating their own culture: sharing passions; celebrating the arts; participating in politics; hosting lively discussion groups; playing games and enjoying hobbies; and mingling at social events. The Residents' Council even funds its own programs and activities with proceeds from its fabulous Monday Market thrift store.

## OUR CONTINUUM OF CARE

As a CCRC (Continuing Care Retirement Community) we provide ongoing options throughout the years of your retirement. Once you join Horizon House as an Independent Living resident you remain a resident. Should you ever need a higher level of care provided through our Assisted Living and Memory Support services, you'll still fully remain a part of the community you know and love.

## SOCIO-ECONOMIC DIVERSITY

Horizon House has always been committed to a degree of socio-economic diversity not found among our competitors. While we do "high end" with the best, our broad range of entrance fees begin at \$70,000. We believe that a colorful spectrum of past career and life experiences results in an equitable and inclusive community that makes us all the richer.

## TAKING CARE OF OUR OWN

Since 1967, our Residents' Assistance Fund provides confidential aid to residents, who, through no fault of their own, have outlived their assets. Thanks to this fund, valued members of our community will always have a home at Horizon House.

## BEYOND WELLNESS TO WELLBEING

To us, wellbeing means living independently, longer. Beyond the array of fitness classes in our gym and aquatic center, we've recently introduced our innovative BEAM Center (Balance, Exercise, and Mobility) to decrease the risk of falls, a major contributor to decreased quality of life. Beyond the physical, our Care Connector assists residents with a spectrum of social services. We also offer many support groups and spiritual care resources to sustain you.

## TRANSPARENCY

We foster transparency with residents to a degree unique among senior living communities. Through monthly "Fireside Chats"; quarterly small group Q & A sessions; pulse surveys; Residents' Council input; and frequent resident-staff collaboration, we keep each other informed and involved.
